Always watch your child

We all want to relax and have a break but doing it around a swimming pool when your children are in the water is not the time and place.

Focus all of your attention on your child and get in the water and play together.

Always watch your child to keep them safe.

Under 5 years

Children under 5 years must be within arms reach from their parent/guardian at all times.

Under 10 years

Children 5 - 10 years must be accompanied into the centre by a responsible parent/guardian over 18, and must be constantly and actively supervised.
